The publication also highlights our partner Barbara Rosenberg, who was elected the most admired woman lawyer in the country among full service law firms.

We are proud of this achievement, and of all the women who are part of our organization and contribute daily to BMA's growth.

We also recognize the importance of initiatives like Análise Advocacia Mulher, which shine a light on the excellent work performed every day by women in the market.

Through our BMA Women program, we are committed to constantly evolving to provide a space for professional development in which women lawyers and other professionals are effectively represented, have equal opportunity and hold strategic roles in the firm.

Congratulations to all our women practitioners on this achievement, and for their outstanding work in the Brazilian legal market.
