Markets Camila Goldberg

Camila Goldberg, a partner in BMA's Financial and Capital Markets practice area, has been named as one of Brazil's leading women lawyers in **IFLR1000 Women Leaders 2021**. This is the fourth edition of the guide, which highlights a select group of practitioners who hold leadership positions in the legal community around the world.

The results of the publication's research are presented by jurisdiction, in the areas of financial and corporate transactions and contract, licensing and regulatory project work. IFLR 1000's research includes interviews to obtain input from clients and market peers.

In addition to IFLR1000 Women Leaders 2021, Camila is frequently highlighted for her work and reputation in the legal market, in publications such as Chambers and Partners, The Legal 500 and *Análise Advocacia*.

We are proud of this achievement by our partner and congratulate Camila on her strategic initiatives and the consistent excellence of her work.
