For another consecutive year, Global Competition Review's GCR 100 guide lists BMA among the country's top competition practices.

For more than two decades, GCR 100 has conducted quantitative and qualitative analyses of law firms around the world to identify the best competition practices.

The 2020 edition of GCR 100 also recognized BMA's work for Allergan in its acquisition of AbbVie, and for Suzano in obtaining CADE approval for the purpose of Fibria Celulose as highlights in 2020.

BMA partners Barbara Rosenberg, Camilla Paoletti and [Sandra Terepins](#) were some of the names mentioned in the guide.

BMA's place among the top Brazilian firms in competition law is the result of our practitioners' dedication and tireless search for creative, sophisticated, and personalized solutions for each client.

It is an honor to receive recognition such as this, which consolidates BMA's approach to the practice of law as a synonym of excellence and a reference in the market.

Congratulations to all involved on this achievement!
