Recognition

For another year, our Restructuring and Insolvency practice has been recognized in the **GRR 100**, the Global Restructuring Review guide that brings together the leading firms worldwide in this area.

In this edition, the publication listed 153 firms across 41 jurisdictions, selected through a global analysis that considers reputation, track record, and performance in relevant matters — especially those with a cross-border dimension.

This recognition reflects the technical consistency, dedication, and commitment of the BMA Team in continually seeking the best solutions for our clients and partners.

Congratulations to everyone on this important achievement!
