We are proud to announce that BMA's Labor and Employment practice area has been recognized in International Employment Lawyer's IEL Elite 2025, placing BMA among the top labor and employment law firms in Brazil.

The ranking is the result of a survey involving in-depth interviews of more than 150 leaders of 90 law firms in 35 jurisdictions, along with in-house counsel, who gave their feedback on the teams that they turn to for routine matters and in times of crisis.

Congratulations to all our Labor and Employment practitioners on this prestigious recognition!
