Recognition Tax

Once again, our tax practice has been highlighted by **World TP**, the well-known guide to the best advisers in transfer pricing.

In preparing the guide, more than 2600 market peers were surveyed, along with feedback from 11,000 clients.

We are delighted with this newest achievement by our Tax practice, which has also been recognized this year by Chambers Global, Chambers Brazil and the World Tax guide, in the categories General Corporate Tax, Indirect Tax, Tax Controversy and Transactional Tax. In addition, BMA practitioners have been named in the Highly Regarded and Tax Leading Advisor by Expert Guides.

Congratulations to our practitioners on this important recognition, which reflects their multidisciplinary work and their dedication and commitment throughout the year.
