Newsletters Tax Tax Reform

The consumption tax reform is one of the most significant changes in the Brazilian tax system in decades. With the promulgation of Complementary Law 214 (CL 214/2025), a new tax system will be introduced that simplifies existing mechanisms and redefines tax jurisdictions within the country. This infographic looks at the current situation and at what we can expect as the reform is implemented, highlighting the main impacts and opportunities for businesses and taxpayers.
