

PRACTICES

Arbitration

A highly specialized, multidisciplinary team, with experience in arbitration chambers around the world, guarantees excellence for our clients in arbitral disputes of varying complexity.

Seeking agile, sophisticated, innovative solutions capable of producing the best results, our arbitration team gives clients the edge that can put them in an advantageous position in arbitral disputes. Our team is composed of **practitioners who bring together broad practical experience and specialist training both in arbitration and in contractual, corporate and infrastructure matters of all kinds**, maximizing optimal outcomes for clients by working together with recognized specialists from various practice areas – one of the benefits offered by a full-service law firm.

We're known for our work in some of the most sophisticated and complex arbitration cases in Brazil in recent years, in various economic sectors, such as steelmaking, textiles, construction, oil & gas, logistics, energy, agribusiness, mining, automobiles, education, and finance.

By using the best and most modern techniques and methods in questioning witnesses, written and oral argument, and the production of documents, we generate a work product that is unique in the market for its exceptional quality and efficiency. We are active in the main Brazilian and international arbitration chambers.

Our team's commitment to understanding our clients' real needs, and to resolving the actual problems at issue in the dispute offers our clients a privileged position. Our strong tradition in business law has shown us that arbitration is a tool that can be used to achieve the objectives of business owners and businesses when they are faced with conflicts.

We have acted in a wide variety of complex arbitration cases, which have the added advantage of being confidential.
