

PRACTICES

Climate

Climate Hub

Our Climate Hub works in close collaboration with other practice areas to address the multiple issues involved in developing and implementing mitigation and adaptation initiatives driven by the climate agenda. The Hub's mission is to offer clients tailored, innovative, and effective solutions to climate-related challenges.

OUR SERVICES COVER

- Climate advocacy in legislative and regulatory processes, including the development and implementation of regulatory frameworks such as Brazil's Greenhouse Gas Emissions Trading System (SBCE), Sector Plans, and Climate Plans
- Compliance with obligations under public decarbonization policies, including sector-specific programs like RenovaBio
- Climate-related litigation and dispute resolution
- Structuring and governance of climate commitments, including supply chain integration
- Regulated (SBCE) and voluntary carbon markets, including contracts, project integrity, and Emission Reduction Purchase Agreements (ERPAs)
- Renewable energy and low-carbon initiatives, including biofuels, green hydrogen, and critical minerals
- Nature-based solutions
