

**PARTNER****Bruna de Barros Correia**

Bruna de Barros Correia is a partner in the BMA's Energy practice area. She primarily works in energy, energy planning, regulation of the electrical sector, and energy transition, providing legal and regulatory consultancy services to clients in the energy field. Bruna also represents clients in administrative proceedings before sector agencies (ANEEL and ANP) and in judicial proceedings (energy disputes).

Professional experience

Bruna was an advisor to the Board of Directors of the National Electric Energy Agency (ANEEL). During her time at the Agency, she worked on the instruction of relevant processes and participated as a member of committees discussing topics such as information technology management, improvement of regulatory best practices (impact analysis and regulatory outcome analysis), innovation, monitoring the effects of the Covid-19 pandemic (Conta-COVID), regulation of conditions for the renegotiation of hydrological risk for generators with contracts in the free market (GSF), regulation of resources in Research and Development and Energy Efficiency projects, regulation of the ANEEL Management Program, and monitoring the systemic conditions of the National Interconnected System (SIN).

She also worked as a professor in the Law course at the Euro-American University Center (Unieuro).

Education

PhD in Energy Systems Planning, Unicamp (2015).

Master in Energy Systems Planning, Unicamp (2011).

Undergraduate in Legal and Social Sciences, PUC-Campinas (2008).
