Professional experience

She has extensive experience in environmental law, with experience in both the public sector and private practice.

Most recently, she served as Head of the Legal Department at CETESB – the Environmental Company of the State of São Paulo, one of the most renowned environmental agencies worldwide. In this role, in addition to defining the legal position on all matters submitted by the Presidency and other Directorates across a wide range of issues, she led the most significant licensing proceedings in the State of São Paulo. She also had the opportunity to draft regulations governing licensing, enforcement, and contaminated site management proceedings, as well as to establish legal strategies in both administrative and judicial litigation.

In private practice, Fernanda has been involved in matters of national and international relevance, consistently working on both contentious matters (including a large volume of judicial claims, whether collective or individual) and advisory work in environmental law. Her areas of focus include contaminated site management, infrastructure projects, energy, mining, steel, industry, sanitation, agribusiness, forestry, construction, and real estate. Fernanda served as a Reporting Member of the First Panel (Ethics) of the Ethics and Discipline Tribunal of the São Paulo Bar Association (OAB-SP).

In addition to speaking at events and publishing articles in books and journals, Fernanda is frequently invited to lecture on contaminated site management, environmental legislation and enforcement, and environmental procedural protection from the perspective of a public authority. She is also a member of the BMA Diversity Committee.

Education

LL.M. in Civil Law – Universidade de São Paulo – USP (2026).

Specialization in Environmental Law and Strategic Sustainability Management – Pontifícia Universidade Católica de São Paulo – PUC-SP/COGEAE (2014).

LL.B. – Universidade Católica do Salvador/BA (2010).

Associations

Member of the Commission on Carbon Trading and Climate Change of the São Paulo Lawyers Institute – IASP

Effective member of the Permanent Commission on the Environment of the Brazilian Bar Association – OAB-SP

Member of the Administrative Law Commission of the Brazilian Bar Association – OAB-SP

Recognitions

Fernanda is recognized by **Análise Advocacia**, **Análise Advocacia Mulher**, and **Chambers Brazil**. She was also shortlisted for **Environmental Lawyer of the Year** at the **Women in Business Law 2026 Awards**, organized by the **International Financial Law Review (IFLR)**, and for **Private Practice Lawyer of the Year – Administrative & Environmental** and **Lawyer of the Year – ESG** at **The Latin American Lawyer Women Awards (2025 and 2026)**.
